17-18th Century: Thematic Maps

Edmond Halley made a world map of trade winds and monsoons (first meteorologic map) in 1686.

18th Century: Survey Maps

Carte de Cassini, Cassini Map or Academy's Map

the pioneering topographic and geometric survey of the entire Kingdom of France, created over four generations of the Cassini family from 1750 to 1815 at a uniform scale of 1:86,400 and comprising 182 engraved sheets that could be assembled into a massive wall map approximately 39 feet high by 38 feet wide.

Maps and Cartography

- A map is the graphic representation of the geographical setting.
- Cartography is the making and study of maps in all their aspects.
- The most fundamental function of maps is to bring things into view.
- All maps have one thing in common: to add the geographic understanding of the viewer.
- All geographical maps are reductions. Thus, they are smaller than the region they portrays.
- All maps are abstractions of reality.

Çatalhöyük, Turkey, ~6000 B.C.

What components do we need on a map?

54. 圖 7 是四個島嶼的位置圖。題文中「加勒比海的某島西部」最可能位於圖中的哪個島嶼？

圖 7

(A) 甲

(B) 乙

(C) 丙

(D) 丁

45. 2022 年 3 月 28 日某報導指出：「俄羅斯軍隊控制蘇梅城後，一路往位於 300 公里外，方位角 260° 的烏克蘭首都基輔挺進。」某生為了解該地戰情進行地圖繪製，圖 11 為該生依據此報導所繪之地圖，但闕漏重要的地圖要素。為使此地圖能被正確判讀，請於答題卷作答區地圖的指北針箭頭處，以「北」字標示正確方位（2 分）；並於比例尺的方框處填入此圖正確的比例尺數值。（2 分）

圖 11

38-39為題組

◎ 某日，桃園市某里的民眾目擊來路不明的狒狒出沒，當地里長請里民留意狒狒出沒地點並即時回報，據此繪製「狒狒現蹤地圖」（圖9），並以歸納法推估狒狒的移動路線，結果發現其移動路線多避開聚落區。圖9中白色標點為狒狒出沒地點，黑色箭頭為推測的移動方向。請問：

38. 根據題文，當地里長推估狒狒移動路線的過程，最符合下列哪項概念？

- (A) 公民科學
- (B) 地理媒體
- (C) 對抗性地圖
- (D) 公眾參與式地理資訊系統

39. 里長想藉由「狒狒現蹤地圖」去預測狒狒可能出沒的地點，但發現該圖缺乏某種地圖要素，以至於無法估算其移動速度，該地圖缺乏的要素為何？（2分）

Scale of Miles.

OCEAN-CHART.

*He had bought a large map representing the sea.
Without the least vestige of land:
And the crew were much pleased when they found it to be
A map they could all understand.*

*“What’s the good of Mercator’s North Poles and Equators,
Tropics, Zones, and Meridian Lines?”
So the Bellman would cry: and the crew would reply
“They are merely conventional signs!*

*“Other maps are such shapes, with their islands and capes!
But we’ve got our brave Captain to thank:
(So the crew would protest) “that he’s bought us the best—
A perfect and absolute blank!”*

*This was charming, no doubt; but they shortly found out
That the Captain they trusted so well
Had only one notion for crossing the ocean,
And that was to tingle his bell.*

The Hunting of the Snark
1876
Lewis Carroll

Maps and Cartography

- The most fundamental function of maps is to bring things into view.

➡ Need to present a map view (map body)

- All maps have one thing in common: to add the geographic understanding of the viewer.

➡ Need to let readers understand where it is (coordinate and direction) and what it is (title).

- All geographical maps are reductions. Thus, they are smaller than the region they portrays.

➡ Need to show the dimensional relationship between the map and the reality (scale).

- All maps are abstractions of reality.

➡ Need to use signs to stand for elements of reality (legends).

Map Composition

- Map body 地圖本體
- Title 圖名
- Legend 圖例
- Scale 比例尺
- Direct indicator 指向標
- Coordinates 坐標系統
- Map metadata: projection, data source, date of creation, and authorship
